QUESTION 221A user has a perimeter firewall and up-to-date antivirus software. The user is asking what else they can do to improve their security. Which of the following will have the MOST impact on network security? (Select TWO). A. Install additional antivirus software B. Disable screen savers C. Conduct a daily security audit D. Assign security rights based on job roles E. Use strong passwords Answer: DE Explanation: To improve security, assign security rights based on job roles. You need to give least amount of privilege to users so that they can do their jobs without having access to resources that have nothing to do with their job roles. QUESTION 222A user states that when they power on their computer, they receive a "Non-bootable drive" error. The user works with external storage devices to transport data to their computer. The user stated that the computer worked fine the day before. Which of the following should be checked FIRST to resolve this issue? A. Jumper settings B. Device boot order C. PXE boot settings D. Hard drive cable Answer: B Explanation:

<http://pcsupport.about.com/od/fixtheproblem/ss/bootorderchange.htm> QUESTION 223A service technician is installing a second hard drive on a desktop PC running Windows 7.
